Platforms report 1.4-1.6x more purchases than the order system

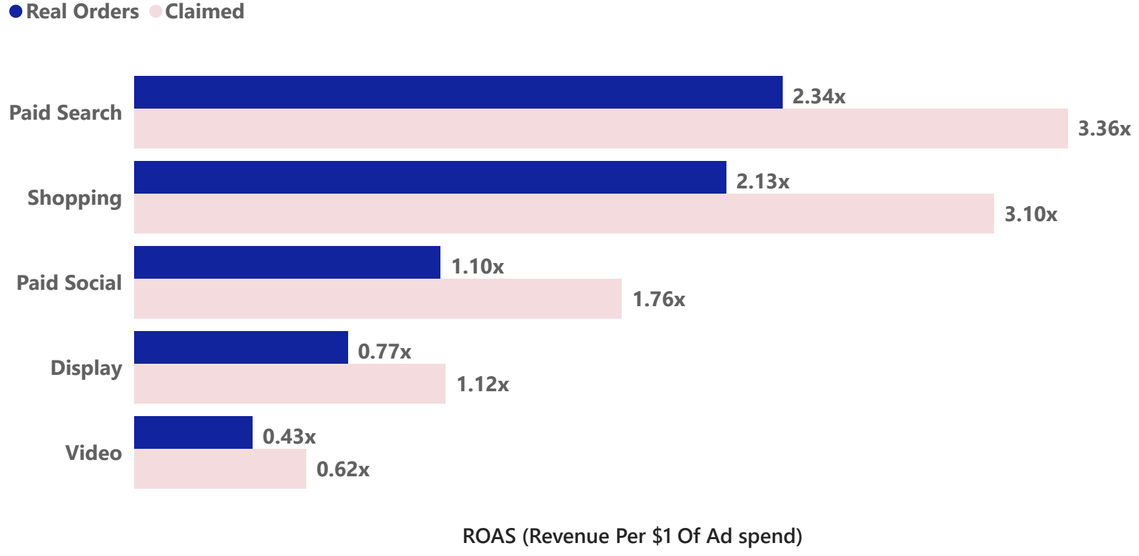

Total Ad Spend (USD)	*Valid Orders*	*Order Revenue USD*	*Blended Order ROAS*	*Cost Per Order (USD)*	*Platform To Order Ratio*
$1.75M	**47.29K**	**$3.94M**	**2.25x**	**$37.08**	**1.50x**

Monthly Ad Spend vs. Order ROAS

Order ROAS vs Platform-Reported ROAS By Channel

Email excluded (ROAS ~ 27, mostly existing customers)

Revenue is before refunds and excludes shipping. There is no margin or cost data, so ROAS is revenue divided by ad spend, not profit. Orders are credited to the last-touch campaign; 17% of orders have no campaign (direct).

Display and Video prospecting return less than $1 per $1 spent.

Orders By Channel: First Touch vs Last Touch

Excludes direct orders with no campaign

First Touch and Last Touch

Cost To Acquire A New Customer By Channel (First Touch, USD)

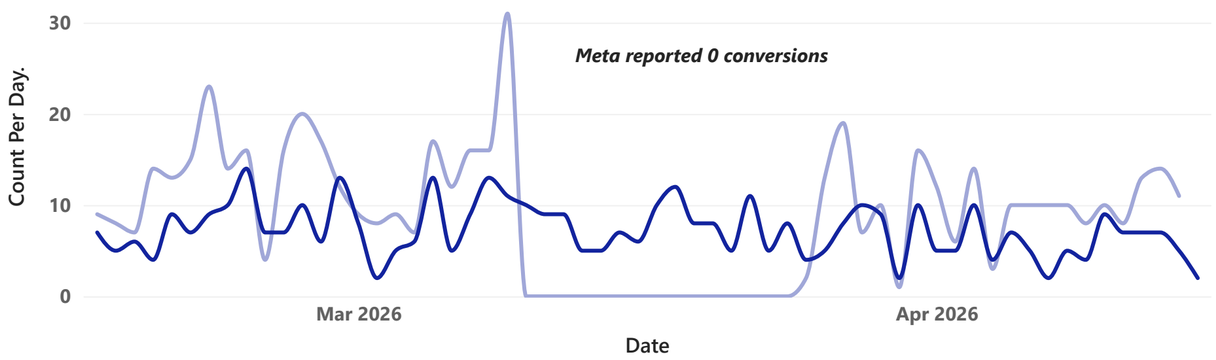

CAC (USD)

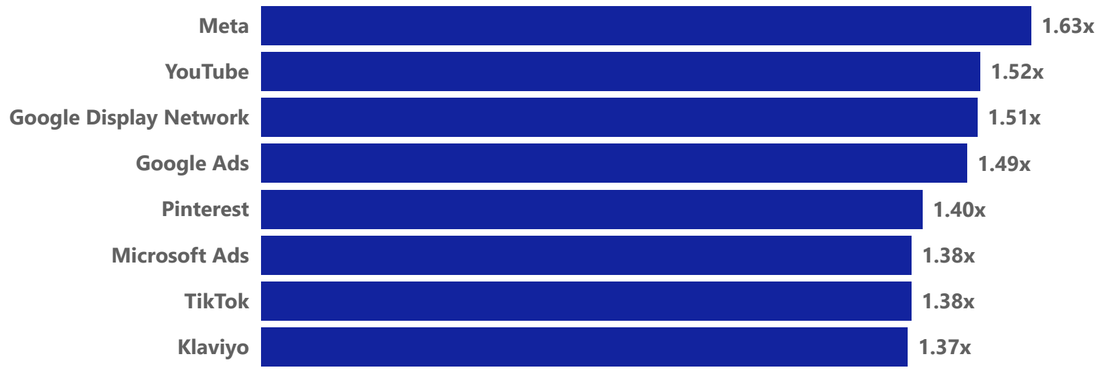

First touch and last touch each credit a whole order to one campaign; neither measures incremental sales. Customers acquired recently have had less time to repeat, so repeat rates are biased low. 189 orders without a customer ID are excluded from customer metrics.

Meta reported zero conversions for 15 days while orders kept arriving
